Reliable solar for your home or business

We Plan and Do. Solar design, installation, maintenance, consultancy and components from one team.

Get my free estimate | Shop components

How much could you save?

Monthly electricity bill (UGX)

450,000

System type

Hybrid with battery backup

Calculate

Estimated 4.2 kW system

8 panels, 10 kWh battery, 5 kW inverter. Payback about 4.6 years.

Indicative only. A site survey confirms the final design and price.

Our services

Design

Site survey, sizing, single-line diagrams and a priced bill of materials.

Installation

Certified crews, safety checklists and commissioning records.

Maintenance

Service plans, warranty tracking and fast fault response.

Consultancy

Energy audits, feasibility studies and design reviews.

Frequently asked questions

Quick answers about quotes, payment, installation, and warranties.

Ask a question

How long is a quote valid?

All rates on a proforma invoice are valid for 30 days.

Can I pay with mobile money?

Yes. MTN MoMo, Airtel Money, card, cash, cheque, or bank transfer.

Do you design before I buy?

Yes. A site survey and design come first, then a priced bill of materials.

What warranty do I get?

Panels, inverters, and batteries carry the manufacturer warranty. Workmanship is covered separately.

How do I report a fault?

Raise a ticket in your portal or call a hotline.
